### Material

SUSXM7 (SUS304 Equivalent), chemical polish.

### Applications

Remove trapped gases in the pilot bore through the ventilation hole (SVHS) and gases between the threads through the washer (SWAS-VF) with ventilation grooves.

### Features

- May be used with vacuum chamber applications in clean rooms, FPD (Flat Panel Display) and semiconductor production equipment and devices.
- All clean washed, preventing the inclusion of oil and foreign particles.
- Chemical polishing improves surface roughness and reduces diffusion to microscopic levels.

### Options

Speciality-use product dimensions, profiles, materials, surface treatments, and special packaging.
