### Material

SUS316L.

**Note:** Alternative surface treatments are available on request. Gold plating, Silver plating, Electroless Nickel plating and Raydent treatment are all available as options. Please contact sales for further information.

### Options

Products with chemical polish are also available.

Speciality-use product dimensions, profiles, materials, surface treatments, and special packaging.

### Features

- SUS316L has excellent corrosion resistance.
- May be used with vacuum chamber applications in clean rooms, FPD (Flat Panel Display) production equipment and semiconductor devices.
- All clean washed, minimising gas diffusion and preventing foreign particle inclusion.
