### Material

Special high impact strength black **technopolymer** coated with **soft touch elastomer** chemically bonded (hardness 70 Shore A), with black matte finish. Resistant to solvents, oils, greases and other chemical agents. Brass tapped insert (Female). Zinc plated threaded steel stud (Male).

### Other Info.

The soft surface of this handle gives the operator's hand a soft feel and provides a better and more efficient ergonomic grip, not subject to environmental conditions.
